## SDG5: GENDER EQUALITY

### **Qassim University's Pursuit of SDG 5: Promoting Gender Equality and Addressing Gender Discrimination**

Sustainable Development Goal 5 (SDG 5) focuses on achieving gender equality and empowering all women and girls. In Saudi Arabia, addressing gender discrimination and promoting gender equality is a vital step toward creating a more inclusive and equitable society. Qassim University recognizes the importance of SDG 5 and has undertaken significant efforts to promote gender equality within its campus community and beyond.

#### **Empowering Women through Education:**

Qassim University's commitment to SDG 5 is evident through its dedication to empowering women through education. The university offers a range of educational opportunities across various disciplines, enabling women to access quality education and pursue their academic and professional aspirations.

#### **Equal Access to Resources:**

The university ensures that both male and female students have equal access to educational resources, facilities, and opportunities. Qassim University actively works to eliminate any gender-based barriers that may hinder female students from fully participating in academic and extracurricular activities.

#### **Creating a Supportive Environment:**

Qassim University is committed to fostering a supportive and inclusive environment that encourages women to excel academically and professionally. The university promotes an atmosphere of respect, understanding, and cooperation, where gender discrimination and stereotypes are challenged.

#### **Empowering Female Faculty and Staff:**

The university's commitment to gender equality extends to its female faculty and staff members. Qassim University provides opportunities for professional development, leadership training, and mentorship to empower women in academic and administrative roles, promoting their career advancement and contributions to the institution.

#### **Gender-Sensitive Curriculum and Research:**

Qassim University integrates a gender-sensitive approach into its curriculum and research initiatives. The university encourages the exploration of gender-related issues and their impact on various fields of study. By incorporating gender perspectives, the university fosters a deeper understanding of societal dynamics and challenges.

#### **Raising Awareness through Workshops and Seminars:**

The university organizes workshops, seminars, and awareness campaigns that address gender equality, discrimination, and related topics. These events promote open dialogue, critical thinking, and informed discussions among students, faculty, and the broader community.

### Support for Gender-Based Research:

Qassim University supports research projects that focus on gender-related topics, including social norms, gender roles, and discrimination. By encouraging research on these subjects, the university contributes to a greater understanding of gender dynamics and societal change.

### Collaboration with Gender Organizations:

The university collaborates with gender-focused organizations and advocacy groups to collectively address gender equality challenges. These partnerships facilitate knowledge exchange, best practices sharing, and joint initiatives that contribute to creating a more gender-inclusive environment.

Qassim University's commitment to SDG 5 is evident through its multifaceted efforts to promote gender equality and address gender discrimination. By empowering women through education, creating an inclusive environment, supporting female faculty and staff, integrating gender-sensitive perspectives, raising awareness, and collaborating with relevant organizations, the university plays a vital role in advancing gender equality in Saudi Arabia. Through its dedication, Qassim University contributes to creating a more just and equitable society where women and men can thrive and contribute equally to societal development.

## 5.3 Access measures

Qassim University has been putting female empowerment at the forefront. The plan includes increasing women's labor force participation in different sectors including the underrepresented ones. QU is playing a vital role to achieve a cohesive method of equality between the men and women of society in various specializations.

### 5.3.2 Does your university as a body have a policy (e.g. an Access and Participation plan) addressing women's applications, acceptance/entry, and participation at the university?

#### University Studies Center for Girls

#### Dean's Message

In the name of God the most Merciful, the most Compassionate

And with it we seek help

Praise be to Allah who taught with the pen and taught man what he did not know, and peace and blessings be upon the most honorable of the messengers of our Prophet Muhammad and on his family and companions.

Qassim University seeks to provide advanced and accredited university education to prepare integrated competencies that meet the needs of the labor market and provide community services and distinguished applied research, in a way that elevates the local community and contributes to

building a knowledge economy, using the latest administrative, technical and information methods, activating national and international partnership and developing the university's resources. The Center for University Studies for Female Students seeks to contribute to an active role in achieving the vision, mission and objectives of the university, and the center is supervised by His Excellency the Vice President for Educational Affairs, Prof. Dr. Ahmed Al-Tami. The female sections enjoy the generous support of the university leadership, represented by His Excellency the President of the University and its vice presidents, to provide an educational environment that stimulates learning and creativity.

The center includes seven colleges in addition to the Deanship of Educational Services. These colleges are the College of Medicine, the College of Dentistry, the College of Pharmacy, the College of Applied Medical Sciences, the College of Nursing, the College of Computer and the College of Business. It also includes the Vice Deanship of Admission and Registration for Female Sections and the Vice Deanship of Student Affairs for Female Student Activities. The center coordinates between these colleges and those deanships.

This website was established to be a bridge of communication and contribute to the employment of technology to provide the desired communication between the Deanship of the Center and faculty members, employees and those interested in following the news of the Center and we seek to provide services through it to students and affiliates. We welcome you to this site, looking forward to your suggestions and observations in order to achieve the vision and mission of Qassim University, and I ask God to achieve this site its goal and to guide us to what he loves and pleases him and to help us serve religion and then the country.

## Criterion 3: teaching and learning

<https://qa.qu.edu.sa/files/shares/handbooks/Student%20Manual.pdf> [19]

The learning outcomes of the program are formulated to indicate the student's knowledge, information, abilities, skills and values upon graduation, and the learning outcomes of the course are formulated to show the knowledge, information, abilities, skills and values gained by the end of the course.

Students' learning outcomes should be clearly defined and in line with the Saudi Qualifications Framework (formerly the National Qualifications Framework) and the requirements of work or professional practice. **The quality of education and the effectiveness of programs are assessed by assessing student performance, surveying graduates and employers, and using feedback from those parties as a basis for future development plans.**

**If the program has a male and female section, the quality standards and learning resources should be the same,** and calendars should include separate data for each department. Provide a description of the quality assurance response procedures used to verify that the regulatory framework and arrangements for verifying that teaching and learning are working properly (for example, if measures are taken to verify student achievement levels against appropriate external references, state what were the results of these actions.
